

Taking Advantage of the Growing Green Economy

Real People. Real Solutions. Real Opportunities!

A [free workshop](#) for small businesses

presented by the California Air Resources Board

Join other small business professionals at this interactive workshop dedicated to reducing costs and increasing revenue in the green economy.

You'll hear other small business owners discuss their real world experiences going green. Sessions will include tactics for cutting operational costs as well as accessing funding.

What: An interactive, 1-day, 4-session workshop
View [agenda](#)

When: Tuesday, March 16, 2010
9:30 AM – 4:00 PM

Where: [Sacramento Convention Center](#)
Held in conjunction with the [Green California Summit](#)

Why: Business is slow, the economy is weak. Times like these offer an opportunity to examine your internal operations and future plans so you are ready to go when the economy turns around. “Greening” your business will help you reduce energy and fuel costs, improve efficiency, and access assistance and funding for green businesses.
